DOCKET NO.: MSFT-0264/148578.01

Application No.: 09/896,781

Office Action Dated: May 20, 2005

PATENT REPLY FILED UNDER EXPEDITED PROCEDURE PURSUANT TO 37 CFR § 1.116

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Currently Amended) A method of recording data comprising the acts of:

receiving protected content at a data processing device;

determining that a portable memory recording device is trustworthy based on a

proprietary hardware interface between said data processing device and said portable memory

recording device; and

using said portable memory recording device to record said protected content

onto a portable memory.

2. (Original) The method of claim 1, wherein said act of determining that said

portable memory recording device is trustworthy includes:

determining that said portable memory recording device will not record said

protected content onto portable memories falling outside of a class.

3. (Original) The method of claim 2, wherein the determination that said portable

memory recording device will not record said protected content onto portable memories

falling outside of a class is made with less than absolute certainty.

4. (Original) The method of claim 2, wherein a characteristic of said class is that

portable memories falling inside said class are not readable by portable memory reading

devices lacking a defined feature.

5. (Original) The method of claim 4, wherein said defined feature comprises a

physical feature.

6. (Original) The method of claim 5, wherein said physical feature is a

proprietary physical feature.

PATENT REPLY FILED UNDER EXPEDITED PROCEDURE PURSUANT TO 37 CFR § 1.116

7. (Original) The method of claim 4, wherein said defined feature comprises a proprietary data handling algorithm.

- 8. (Cancelled).
- 9. (Original) The method of claim 1, further comprising the act of:
 determining that recording of said protected content onto said portable
 memory is permitted by the terms of a license governing said protected content.
- 10. (Original) A computer-readable medium having computer-executable instructions to perform the method of claim 1.
- 11. (Currently Amended) A method of recording protected data comprising the acts of:

receiving protected content at a data processing device;

determining that a portable memory recording device will not record said protected content onto portable memories falling outside of a class, wherein a characteristic of said class is that portable memories falling inside said class are not readable by portable memory reading devices lacking a proprietary hardware interface; and

using said portable memory recording device to record said protected content onto a portable memory.

- 12. (Original) The method of claim 11, wherein the determination that said portable memory recording device will not record said protected content onto portable memories falling outside of a class is made with less than absolute certainty.
 - 13. (Cancelled).
 - 14. (Cancelled).

PATENT REPLY FILED UNDER EXPEDITED PROCEDURE PURSUANT TO 37 CFR § 1.116

15. (Cancelled).

- 16. (Currently Amended) The method of claim 13 11, wherein said defined feature comprises a characteristic of said class is that portable memories falling inside said class are not readable by portable memory reading devices lacking a proprietary data handling algorithm.
- 17. (Original) The method of claim 11, wherein said act of determining that said portable memory recording device will not record said protected content onto portable memories falling outside of a class comprises engaging in an authentication protocol between said data processing device and said portable memory recording device.
- 18 (Original) A computer-readable medium having computer-executable instructions to perform the method of claim 11.

19-39. (Cancelled).
